### ✓ **Past week accomplishments (please describe as what, who, when)**

- ❖ Yujin finished the more popover and started on the “edit” popover
- ❖ Matt made the videos of the app for our presentation
- ❖ Matt finished location breadcrumbs and implemented multiple different map types (Map, Hybrid, Satellite)
- ❖ Mason worked on editing recorded sightings
- ❖ Kyle fixed importing CSV files
- ❖ DJ is continuing support of the Fabric Beta release
- ❖ Blake has added wind speed picker for “more” popover

### ✓ **Plan for coming week (please describe as what, who, when)**

- ❖ Matt will add “favorites” in the list, clean up the snackbar and work on bug fixes
- ❖ Eric will work on linking meandering/field trip surveys
- ❖ DJ will push out new builds for Fabric as we continue updating and fixing the app
- ❖ Yujin will fix the edit snackbar and popover

### ✓ **Pending issues**

- ❖ We now have the Apple developer license so we can push a Beta to our iPhones, but still don’t have the licensing needed to submit to App store.

### ✓ **Individual contributions**

✓ **Comments and extended discussion**

We worked this week on our “rough-draft” final presentation with Dr. Amariucaí and think it will go well. The only concern is the videos/GIF’s for our app demo which might not work well on the presentation.
